POSTKARTE

The Jungfrau (13,670 feet) is the highest calcareous mountain in Europe. It was first ascended August 3, 1811, by the brothers Meyer and two Vallais hunters. Professor Tyndall was inspired, by his ascent in 1863, to write one of his most beautiful pages. The view from the summit includes Mont Blanc, the Dent Blanche, the Weisshorn, and innumerable other peaks.

(FOR ADDRESS ONLY.)
